

INTERDEPARTMENTAL MAIL PROCEDURES

Proper procedures and understanding will help maintain and/or improve efficiency of our/your mail service.
Below are some procedures which will help improve the speed and efficiency of your service.

1. Addressing and use of Interdepartmental Envelopes

Interdepartmental envelopes should be properly addresses to avoid delays. Please indicate the addressee's name, department, room #, building name or street address if the building name is not common on campus.

- a. **Use clear unambiguous building names, and or addresses to avoid delays. Avoid building abbreviations and department acronyms.**
- b. Envelopes with misaddressed or unrecognizable addresses that cannot be delivered will be opened and an attempt will be made to deliver to either the intended recipient or sender.
- c. All Interdepartmental Mail should be placed in an approved envelope.
- d. Once all the lines on one side of the envelope are completed, cross out that side with a big "X" and use the reverse side of the envelope. Once both sides are full, place in a recycle bin.
- e. For mail going to students in Residence Halls please indicate the name of the recipient, along with the name of the hall and the floor name.
- f. Administrators who maintain bulk mailing lists should regularly review the names and addresses to ensure currency and preclude delivery delays.
- g. Departments which move should notify Interdepartmental Mail of their new address.
- h. Departments which move off-campus should notify the Interdepartmental Mail office of their new address and through which on-campus department they wish to have their mail forwarded.
